A craftsman with a mustache, wearing safety glasses and a dark work jacket, is focused on his work. He is using a mallet and a chisel to shape a piece of wood. The scene is set in a workshop, with a blurred background showing other workbenches and tools. The lighting is soft, highlighting the craftsman's concentration and the texture of the wood and his clothing.

BENEFIT SYMBOLS EXPLAINED

As there are no universal standards or certifications specific to all the products in our industry, we have developed our own simple system to help you quickly find the types of benefits you are looking for.

British Material

We are passionate about using British material and to reducing our carbon footprint as a result. This symbol indicates a product which is made using material quarried in the United Kingdom.

Manufactured in the UK

We are proud to have the production facility to create bespoke memorials in our own factory and this symbol indicates a product which is manufactured in the United Kingdom.

Suitable for Laser Etching

A laser etching machine can copy a photograph, picture or drawing and reproduce the image onto granite with outstanding accuracy. This symbol indicates the materials best suited for this process.

Hand Carved Ornament

This symbol indicates that a three dimensional carving has been created by hand. Fully carved ornaments/designs often change the shape of a memorial entirely and almost certainly become the focal point of the memorial.

Low Maintenance

This symbol indicates a memorial which is highly polished making it easy to maintain. An all polished or fully honed (non-reflective) memorial can be cleaned by simply applying water with a cloth or sponge.
